

Paton Group Presents:

INTRODUCTION TO THE NEW STRATASYS F123 SERIES 3D PRINTERS

Upcoming Stratasys F123 Series Workshops - Southern California

Join us for an upcoming workshop and see the NEW F123 Series 3D Printers. The Stratasys F123 Series combines powerful FDM technology with design-to-print GrabCAD software for the most versatile and intelligent solution available. Produce fast, effective prototypes for concept development, as well as highly accurate and robust parts for design validation and functional performance. Each workshop session will include an “in-depth” look at GrabCAD Print Software, material options review for all F series machines, along with an up-close “kick the tires” demo on an F370 Series 3D Printer by Stratasys.

Friday, June 2, 2017
